STATION USERS GUIDE

All extensions 2100 thru 2199 are Direct In Dial telephones. Outside callers can call directly to any 2100 extension by dialing 633 and the 2100 extension (633-21xx).

MEDICAL CENTER NUMBER 666-6500
DIRECT IN DIAL NUMBER 633-21xx
FTS NUMBER 388-Extension

HOW TO OPERATE

TO PLACE A CALL ON HOLD

Flash the switchhook once and listen for special dial tone. Dial*5. This places party on hold. Hang up receiver to return to party.

TO TRANSFER AN OUTSIDE CALL TO AN EXTENSION

Flash the switchhook once for about one (1) second and listen for special dial tone. Dial the desired extension number. When the party answers, announce the call and hang up. If the extension is busy, flash the switchhook once again to return to the outside party.

TO CONSULT WITH AN EXTENSION WHILE OUTSIDE PARTY HOLDS

Ask outside party to hold. Flash switchhook once and listen for special dial tone. Dial desired extension number. When conversation is completed and the called extension hangs up, you will automatically be connected to outside party.

THREE PARTY CONFERENCE

Ask first party to hold. Flash switchhook once and listen for special dial tone. Dial desired number. When party answers, announce the conference. Flash switchhook once again. All three parties are connected.

TO ACTIVATE CALL BACK

The desired extension is busy. Flash the switchhook once for about one second and listen for special dial tone. Dial #1. If the call back is accepted, service set tone will be heard. If call is denied, recorder tone will be heard. Hang up and wait for the call back.

TO CANCEL CALL BACK

Lift handset and listen for dial tone. Dial*1. Service set tone will be heard.

TO ACTIVATE CALL PICK UP

You may answer an incoming call directed to an unattended extension within your assigned pick up group. Lift handset and listen for dial tone. Dial *0. The call is automatically connected to your extension. Note: if you are on your extension with another call, switchhook and dial *5. This will hold your first party and you will receive dial tone. Dial *0 and this will immediately connect you to the second party. To return to first call, simply hang up and first party will ring back to you.

CALL FORWARDING

You may direct all of your incoming calls to another extension. Lift the handset and listen for dial tone. Dial #2. Listen for special dial tone. Dial the desired extension number that you want your call to go to. If forward is denied, reorder tone will be heard.

TO CANCEL CALL FORWARDING

Lift the handset and listen for dial tone. Dial *2. Service set tone will be heard.

TO ANSWER A CALL WAITING

If you hear a short tone burst while using the phone, it indicates another call waiting. You can terminate your current call by hanging up and your call waiting will ring thru. You may alternately choose to put your first call on hold by switchhooking and dialing*5. This will immediately connect you to the waiting call. To return to the original call, hang up your receiver and the party on hold will ring back to you.

TO RECALL MEDICAL CENTER OPERATOR FOR TRANSFER ASSISTANCE

You may ask the attendant to transfer (or hold) an outside call. Flash the switchhook once and listen for special dial tone. Dial 0 and give instructions, then hang up.

TONE OR SIGNAL

Fast Ring Signal	You have an outside call.
Normal Ring Signal	You have an inside call.
Busy Tone	The called party is busy.
Reorder Tone (fast busy)	All trunks busy or you have dialed an unassigned number or activation of a service featur is denied or your call is restricted.
Special Dial Tone	Okay to proceed with activation of service (interrupted dial tone) feature.
Service Set Tone	Activation of the service feature. (steady tone)
Short Tone Burst	You have an outside call waiting.

TELEPHONE COURTESY

Everytime you make or receive a call at work, you are representing this Medical Center. The impression you create can be a lasting one. When your telephone rings, answer it promptly, show that you are alert, ready to help the person on the line. Quick service helps build a reputation of efficiency for you and the Medical Center.

Identify yourself, give your name or department, be friendly, show that you are interested, use simple straightforward language. Avoid technical terms and slang.

Speak directly into the transmitter, do not carry on two conversations at once. The caller should not be made to feel they are competing with people in your office for attention.

Take time to give the call a good ending. Thank the person for calling, and do your best to close the conversation in a way that will leave the party feeling satisfied. After you say goodbye let the caller hang up first. Then, replace your receiver carefully and quietly.

TELECOPIER

This service is available for all services. The use of the telecopier is for rapid communication between other VA installations who have comparable equipment. Service is available by contacting the Teletypist, Telecommunications Unit, at extension 3365 or 3363.

THREATENING TELEPHONE CALLS

Anyone receiving a threatening telephone call will:

1. Immediately write down the exact wording of the threat, time and extension number of the telephone on which call is being received.

2. Continue conversation with the caller as long as possible. While doing so, write information down and hand it to the nearest person.

3. This person will immediately dial "0" (Operator), give name and location of the person receiving the call and all information in the note and request that the call be traced.

4. The VA Operator will immediately implement the trace procedure.

5. As soon as the caller is no longer on the line, furnish information to the switchboard operator immediately and notify your supervisor.

TELEPHONE EQUIPMENT: INSTALLATIONS - RELOCATIONS - SERVICE

1. Requests for additional equipment, moves or changes to existing telephone facilities, must be kept to a minimum.

2. Requests for changes in service will be submitted on a memorandum to the Chief, Medical Administration Service (136). The memorandum will indicate type of equipment or changes required and will include a specific justification for such requirements. "On the Spot" installation changes, which differ with those of the original request are restricted and will not be made by Universal Telecommunication Systems. Submission of amended requirements will be made in the same manner as original request.

3. Service difficulties or defective equipment will be reported to the Teletypist, Telecommunications Unit, at extensions 3363 or 2301.

GENERAL INFORMATION

PERSONAL CALLS

Medical Center telephones are for official business. Personal calls are prohibited. Public telephones are conveniently located throughout the corridors for use on personal calls.

LOCAL CALLS

Consult the Chicago or suburban telephone directory for the desired number. Then dial "9" and the appropriate seven digit number if you have an unrestricted telephone line.

LONG DISTANCE CALLS

Long distance calls will be placed only by those personnel authorized by the Chief, Medical Administration Service. However, ever effort should be made to complete the calls on FTS.

Unofficial collect calls will not be completed by the operator. Please use the public telephones.

Incoming collect calls will not be accepted by the operator unless he/she has been advised of the call in advance. Persons authorized to receive incoming collect calls, should dial the operator and inform him/her of the call. Unless otherwise instructed, every effort will be made to return the calls on the FTS network.

TELEPHONE DIRECTORIES

Additional VA West Side Telephone Directories, Chicago's Consumer and Business to Business Yellow Pages as well as all of the Suburban Telephone Directories can be obtained by contacting the Chief, Office Operations at extension 3399.

DICTATING INSTRUCTIONS

1. Call estension 3199. When a tone is heard, enter the following 10-Digit number:

RPRT. ___ ___ ___-___ ___-___ ___ ___ ___ ___
TYPE PATIENT SOCIAL SECURITY NUMBER

TYPES OF REPORTS

1. DISCHARGE SUMMARY
2. OPERATIVE REPORTS
3. COMP. & PENSION
4. OTHER

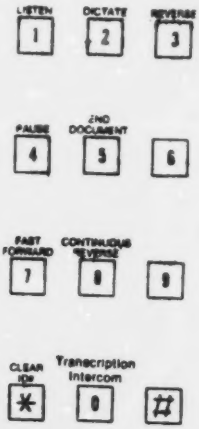
2. After entering the digits, begin your dictation. The recorder will automatically record your voice. When you stop talking, the recorder will pause. If you wish to pause for longer than 2 minutes, press "4". Press "2" to resume dictation.

3. For "STAT" dictation after entering report type and patient's social security number, push "0" and the Transcription Control Clerk will answer your call.

4. Please push "9", hang up and redial the system after each report.

5. Again dictate your name; dictate and spell patient's name and social security number.

6. To use the intercom: press the "0" (zero) button on the phone and the Transcription Control Clerk will answer your call.



EMERGENCY NUMBERS

IN CASE OF FIRE, DIAL	2294
ALL PATIENT EMERGENCY, DIAL	2555-2556
CARDIOPULMONARY RESUSCITATION TEAM, DIAL	2555-2556
TELEPHONE OPERATOR, DIAL	"0"
PATIENT INFORMATION & EXTENSION INFORMATION	2300-2303
OFFICER OF THE DAY	2239
SECURITY SERVICE (VA POLICE)	2504

WHEN FIRE IS DISCOVERED

1. NOTIFY THE FIRE DEPARTMENT BY TURNING IN ALARM AND STAY AT ALARM BOX UNTIL ARRIVAL OF MEN AND EQUIPMENT. DIAL 2294 AND GIVE EXACT LOCATION OF FIRE

2. REMOVE ANYONE IN DANGER TO A SAFE PLACE

3. CONFINE THE FLAME BY CLOSING DOORS & WINDOWS

4. FIGHT FIRE WITH EXTINGUISHERS OR ANY MEANS UNTIL FIRE DEPARTMENT ARRIVES.

PNEUMATIC TUBE SYSTEM

Always make sure the receiving and sending doors are kept securely closed. If not, items nearby will be drawn into the system.

Report any problems to the Supervisor, Mail, CHR Files and Reproduction Unit at extension 3400.

Always return excess tubes to the Tube Station No. 00. Please do not hoard tubes as others may be waiting for them.

Before dispatching a tube, be sure that it is securely closed. Improperly closed tubes will open up during transit with the probable loss or damage of the contents and a system stoppage.

The Tube Station telephone number is 2344.

BLANK PAGE

FEDERAL TELECOMMUNICATIONS SYSTEM (FTS)

FTS will be the normal medium for placing official long distance calls. Employees authorized to use the FTS network should consult their FTS directory guide first. To place a FTS call dial "8" and then the 7 digit FTS number or "8", the area code and the seven digit telephone number.

When FTS is being used, try to limit the amount of time spent on each call. These calls are billed to Central Office by the length of calls, and using techniques such as returning a call vs. placing an individual on hold would be a cost savings. Callers will use FTS only when economically prudent over other types of communications.

Report all FTS problems to the Telecommunication Unit Supervisor, extension 2301. Give him/her your extension number, the complete number dialed and a brief description of the trouble.
